**10AM - 1PM**  
**GENENTECH IN OCEANSIDE**

## Inspire the next generation in STEM.

Please join us at STEM Possible, an event to showcase the depth and diversity of all careers within STEM to high school students! You can help teach these students how to find their personal strengths and interests, and then match those with STEM jobs. By interacting with students in small group settings, you will explain how your interests led you to your career path.

Lunch and parking are provided. You may split the time into two shifts with a colleague if that is preferable.
